Establishing healthy behaviors to prevent chronic disease is easier and more effective during childhood and adolescence than trying to change unhealthy behaviors during adulthood.*

Caring for your littlest patients shouldn't cause the biggest headaches. **Henry Schein Medical** offers a full line of medical and surgical supplies, equipment, and vaccines. We have the products and solutions that provide not just comprehensive diagnosis, treatment, and care, but also comfort for infants and children. Rely on us to help you meet your pediatric practice needs.

Exam Room Equipment

Ritter 224 Barrier-Free® Examination Chair

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 224 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities. The Ritter 224 has a gas spring assisted back section with an easy-access backrest mechanism.

Ritter #230 Universal Power Procedures Table

Features eight-way power for effortless patient positioning. Whether it is power height, back, foot, or tilt, it does the lifting for the physician—minimizing back stress, reducing workplace injury, and keeping patients comfortable.

- Power height, back, foot, and tilt
- 450-lb patient weight capacity
- 22½" to 40" seat height adjustment
- "Knee-chest" position configurable
- Hand control standard
- Seamless upholstery top
- Articulating headrest
- Adjustable stirrups
- 18" paper roll holder
- Meets UL 60601-1 and CAN/CSA C22.2 No.60101-M90 safety standards
- Hospital grade electrical outlets and table rotation also available
- Optional foot control
- Available in 8 seamless upholstery colors

425 Air Lift Physician Stool

Designer Series
Designed for your comfort and support all day, every day. Choose the features you want. Start from the "bottom up" with the frame and seat, then add the back and armrests. Order everything you want at once, or add on later, as you prefer.

(151-4236).....	ea
-----------------	----

626 Barrier-Free® Examination Chair

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as \$135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

HENRY SCHEIN®
DIGITAL ELECTRONIC
EYE-HEIGHT SCALE

Compact, eye-height digital scale that features an integrated mechanical height rod, large backlit LCD display, and BMI calculator. Weight capacity up to 500 lb (225 kg). Low profile for easy access—platform is only 2½" high. Sta-Bilt stabilizing software ensures an accurate measure, even if the patient is moving. Autohold feature allows the weight to continue to be displayed after the patient has stepped off the scale. Integrated USB interface allows data to be transferred to a computer. Includes 2-year warranty.

Welch Allyn® Spot™ Vision Screener

A handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-ft distance. The touch-screen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefractive applications. Features:

- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough, objective, and easy-to-understand results
- Easy to use, easy to implement, with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time, helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children
- Convenient carrying case

- #VS100S-B, Vision Screener Set (497-0004)..... ea

Welch Allyn® OAE Hearing Screener — Next Generation

The next generation in objective hearing screening technology, designed to address the challenges practitioners face when screening infants, newborns, toddlers, preschool, and school-age children. Objective screening, paired with breakthrough technology, make this hearing screener an ideal tool when testing for otoacoustic emissions. Rapidly screen newborns and infants with minimal cooperation required. No behavioral response required for those too young to respond or who have trouble sitting still. Tests are fast; just 3 button pushes turn on the device and complete tests on both ears in approximately 8–16 seconds per/ear (assumes DPOAE screening with 2–4-second averaging).

Lung function testing at the point of care

Do you have patients with a history of Asthma, COPD, or COVID-19? EasyOne spirometers are essential to monitor patient health and develop effective treatment plans.

EasyOne products make it easy to decentralize lung function testing – patients don't need to visit another office or PFT lab for simple, inexpensive, and revenue-generating tests.

Visit NDDMED.com for more information

Portable and PC spirometry

Easy on-PC Spirometry System

The Easy on-PC uses the power of your PC, laptop, or tablet, leveraging True Flow ultrasound technology for a complete spirometry solution. This PC spirometer uses pediatric incentives, displays inspiratory and expiratory real time curves, and offers challenge testing. Some of the essential features include:

- Flexible EMR capabilities
- Trending
- Selectable predicted values and interpretation
- Automated quality control
- Supports multiple languages

#2700-3, Easy on-PC Spirometry System	ea
(114-6688)

stryker® **HeartSine®** **samaritan® PAD** **AEDs**

Designed specifically for the lay responder, HeartSine® samaritan AEDs offer industry-leading value and environmental protection, all in an easy-to-operate system in the smallest and lightest package available.

- Compact and lightweight: 28%–56% smaller than other AEDs on the market and weighs only 2.4 lb
- The samaritan PAD has a rating of IP56, providing the 350P defibrillator with the highest level of protection from dust or moisture ingress in the industry
- 8-year warranty as standard demonstrates the reliability of this quality unit
- Drop-tested in accordance with IEC; 60601-1
- Field-upgradeable to the latest AHA/ERC guidelines
- Automatic self-check
- Integrated metronome prompts the CPR chest compression rate
- Events are recorded with the time, date, ECG trace and duration, shock delivery information, and CPR intervals, downloadable to a PC with optional SAVER® EVO software
- CE marked and FDA cleared

- 1-3" x 3" gauze sponge

(900-4687)..... ea

Surgical Sutures

From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

POLYLITH CARD

Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK

Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

RACETRACK FEATURES AND BENEFITS

LARGER DIAMETER

Larger overall diameter to ensure less suture memory and minimize the number of suture rotation around track.

PRESS-PUSH NEEDLE LIFT

The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

Knot your average suture

Traditional suturing techniques can lead to knot-related complications.¹ Why compromise when you can get more with STRATAFIX™ Knotless Tissue Control Devices?

- **More efficiency and consistency** with no need to tie knots^{2,3}
- **More strength* and security** than traditional sutures^{3,7}
 - STRATAFIX™ Symmetric PDS™ Plus Knotless Tissue Control Device provides 39% greater holding strength than coated VICRYL® (polyglactin 910) Suture⁴
- **28% reduction in surgical site infection risk** demonstrated in a meta-analysis with the use of triclosan-coated sutures^{8†‡§}
- STRATAFIX Knotless Tissue Control Devices are the only commercially available barbed sutures with Plus Antibacterial Technology^{9,10}

Why Knot? When you can STRATAFIX™

For complete indications, contraindications, warnings, precautions, and adverse reactions, please reference full package insert.

*Refers to STRATAFIX™ Symmetric PDS™ Plus Knotless Tissue Control Device only.

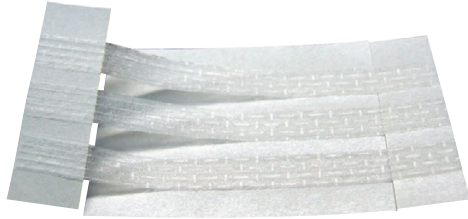

†In a meta-analysis that included 21 RCTs, 6462 patients, 95% CI: (14, 40%), P<0.001.

‡All triclosan-coated sutures in these RCTs were Ethicon Plus Antibacterial Sutures (MONOCRYL® Plus Antibacterial (polyglactone 25) Suture, Coated VICRYL® Plus Antibacterial (polyglactin 910) Suture, and PDS® Plus Antibacterial (polydioxanone) Suture).

§Meta-analysis only included traditional (non-barbed) sutures.

Wound Closure

HENRY SCHEIN®

WOUND CLOSURE STRIPS

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- To be used in addition to or in place of sutures
- Each size is in a color-coded package for quick and easy size identification
- Medical-grade adhesive properties: Affords excellent adhesion, resistance to moisture, superior longevity, and is gentle to the skin
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Not made with natural rubber latex

PGA (POLYGLYCOLIC ACID) ABSORBABLE SUTURES, UNDYED, BRAIDED

Synthetic absorbable braided sutures have a smooth, low-friction coating that reduces tissue drag. They retain approximately 50% of their initial strength at 2 weeks and 20% at 3 weeks. PGA is ideal for skin and mucosa closings and can be used in most areas of the body.

TOPICAL SKIN ADHESIVE

Sterile, 0.5-mL Single-Patient-Use Plastic Ampules
The proven choice of wound closure with over 40 years of clinical experience, this FDA-approved liquid adhesive consists of n-butyl-2 cyanoacrylate.

- Highest bond strength of all topical tissue adhesives on the market
- Will not clog or dry out when opened
- Provides a precise, controlled application
- Inhibits growth of bacteria
- Available in dyed and clear versions
- Flexible version provides more flexible coverage for longer incisions

3M™

Precise™ Multi-Shot Skin Staplers

Arcuate-Style

Quick and easy to use: Simply press your thumb and index finger together to implant a staple in a single motion. No waste: selecting only the number of staples required for each incision eliminates the extra expense of discarding unused staples. Reliable: Uncomplicated design delivers consistent, reliable performance.

#DS-5, 5 Staples (777-0505).....	12/box

#DS-25, 25 Staples (777-0622).....	12/box

Steri-Strip™ Skin Closures

Sterile

Uses a pressure-sensitive, hypoallergenic adhesive. Adhesive style is breathable, made of microporous adhesive, and reinforced with filaments for added strength. It is appropriate for low-tension wounds. Contains iodophor: ideal for use when additional antimicrobial activity is desired.

- Less scarring, enhanced patient comfort, and less chance of infection than with sutures or staples
- Fast application
- Reduces likelihood of skin irritation
- Use to close lacerations, surgical incisions, and following early suture/staple removal
- Provides wound support and assists in increasing tensile strength of wound

Dukal's line of licensed bandages offers children fun characters and designs to help promote healing and prevent infection while offering practitioners our trusted Stat Strip® technology.

When children play, they learn. Physical activity is linked to academic progress, self-regulation, and social competence – but that's not without a few bumps and scrapes along the way. Through inspiring designs to build confidence and the highest standards in care, our complete line of pediatric medical disposables aims to support a healthy return to the school year for every student.

We strive to be a trusted partner, so educators and healthcare professionals can focus solely on the well-being of tomorrow's leaders.

SOL-CARE™ Luer-Lock Safety Syringe without Needle

Designed with an integrated safety feature that retracts the needle back into the barrel. The ability to break the plunger off also aids in preventing needlestick injury. Exchanging needles or connecting to devices with a Luer-lock fitting (e.g. SOL-M™ Blunt Fill Needle) is quick and effortless.

Hypodermics

ShotBlocker®

This novel application of the gate theory of pain management uses a number of blunt contact points to saturate the sensory signals around an injection site, distracting the patient from the pain signals of the needle poke. A simple, noninvasive, drug-free method that instantly reduces needle pain and anxiety at half the cost of other methods.

- Easy to use: just press ShotBlocker firmly over the injection site and administer the shot through the opening
- Made in the USA
- Disposable
- Yellow

Buzzy®

Designed to relieve pain from needle procedures, this device features a contoured and compact design that tucks under a standard tourniquet or fits easily in the hand. Patented M-Stim™ mechanical stimulation and ice technology deliver relief where it's needed, blocking pain on contact. Intended for healthcare and multipatient use, or for those who desire a healthcare-grade unit. Features 3-minute auto-shutoff and 2 vibration settings.

Includes:

- 1 Buzzy® (Bee-Striped or LadyBuzz)
- 4 healthcare-grade wings
- 1 Tournistretch® silicone comfort strap (not made with natural rubber latex)
- 2 AAA batteries (preinstalled in unit)

TESTED WITH HAZARDOUS DRUGS BECAUSE YOUR SAFETY IS OUR PRIORITY

Unlike other closed system transfer devices (CSTD), OnGuard 2 Closed System Transfer Device locks with a "click" during handling, so there's no question you're protected. Only OnGuard 2 was tested with actual hazardous drugs for vapor containment and is the market leader in CSTD air-cleaning technology. Designed to provide simple, safe, easy-to-use protection for nurses, pharmacists, and your patients.

Contact your Henry Schein Representative for further information

ONGUARD® 2 CSTD

DESIGNED FOR THE REAL WORLD.

NEW

Reduction in residual volumes of Luer lock adaptor (approx. 60% reduction)¹

Upgraded spike design allows for reduction of residual volume in IV bag

Not made with DEHP or PVC

¹ B. Braun data on file

OnGuard 2 CSTD is manufactured by Simplivia Healthcare Ltd. and distributed by B. Braun Medical Inc.
 Rx only. ©2022 B. Braun Medical Inc. Bethlehem PA. All rights reserved. 22-0926B 1/22

IV Bags Should be Safe for All

Protecting Patients and Our Environment

More than four decades ago, B. Braun recognized the patient and environmental risks posed by products containing PVC and DEHP. Medical devices containing these chemicals pose potential health hazards to patients and to the environment during waste disposal. As a result, B. Braun was one of the first medical device manufacturers to remove these harmful substances from many of our products, and continue to lead the way in offering a full line of IV Solutions, Pre-Mixed Drugs, and Irrigation Solutions containers that are manufactured using biologically inert, non-toxic plastic materials.

30% of patients only fill a prescription when provided a sample.*

The Henry Schein Rx Samples Service is a free and secure online service that enables eligible** practitioners to request medication samples easily and conveniently at www.hsrxss.com/M.

How it works:

- Pharmaceutical manufacturers create specialty appropriate allocations for individual prescribers
- Check eligibility at www.hsrxss.com/M
- Select brands of interest
- Click "Recurring Request" for easy reordering
- Authenticated eSignature for a touch-free experience
- Samples arrive in 4–6 business days

Benefits:

- Gain valuable information about patient response to new therapy
- Increase patient adherence to medication plan
- Enable patients to initiate treatment faster
- Increase patient satisfaction with the care experience

* Datamonitor

**Only eligible prescribers are able to enroll and request samples through the Henry Schein Rx Samples Service.

Contact our pharmaceutical and vaccine team and let us do the research.

Henry Schein's DxRx Hotline is a single point of contact for Henry Schein customers for answers to various types of questions related to pharmaceuticals, and vaccines. The DxRx team is available as a trustworthy and accessible source of information at your convenience. The DxRx team is available via e-mail, 8:30am–5:00pm (et).

Features:

DxRx can answer questions related to:

- Latest updates on supply issues
- Indications and usage as provided on package inserts
- Brand-to-generic comparisons
- CPT® and J codes*
- Product storage requirements
- ACIP recommendations for vaccinations
- Flu vaccine and flu-related topics

Benefits:

- Complimentary, on-demand resource for immediate needs
- Easy-to-access and use resource
- One e-mail to answer pharmaceutical and vaccination questions

*For informational purposes only.

Varnishes

HENRY SCHEIN®

ACCLEAN® FLUORIDE VARNISH 5%

5% sodium-fluoride varnish is simple to apply. Premeasured unit-dose cups fit easily into enclosed finger ring, and varnish applies effortlessly with included Microbrush® applicator. This easy-to-use, pearized white varnish sets on contact with saliva and dries to a natural tooth color. Formulated with only natural sweeteners and xylitol. Delivers the highest fluoride concentration available (compared to nonvarnish fluorides.)

- 5% sodium-fluoride varnish is simple to apply
- Premeasured unit-dose cups fit easily into enclosed finger ring, and varnish applies effortlessly with included Microbrush® applicator. This easy-to-use, pearized white varnish sets on contact with saliva and dries to a natural tooth color
- Formulated with only natural sweeteners and xylitol
- Delivers the highest fluoride concentration available (compared to nonvarnish fluorides)
- White but dries to a natural tooth shade
- Smooth, thin formula for ease of application without clumping
- Contains xylitol to inhibit plaque formulation
- Sets rapidly in the presence of saliva, then remains on the tooth structure for up to 8 hours, optimizing fluoride uptake and reduces risk of fluoride ingestion
- Single-use, premeasured, 0.50-mL sealed cup aids in asepsis and assists in eliminating cross contamination. Also allows for quick application and makes cleanup fast and simple
- Four great-tasting flavors for increased patient acceptance

0.5 mL.....50/box

Specify:
Bubblegum (112-4869) Mint (112-7169)
Cherry (112-4868) Raspberry (112-5963)

Contains: 50 unit-dose cups, 50 Microbrush® applicators & 1 finger ring.

Enamel Pro® Varnish with ACP

The only varnish formulated to deliver amorphous calcium phosphate (ACP). Desensitizes dentin—it has been shown to diminish hydraulic conductance by 73%.¹ The fluoride and ACP provide a semipermanent occlusion with fluorapatite.² The ACP technology delivers 4X more fluoride uptake into the enamel than the leading brand of transparent varnish.³ Easy-to-use, single-unit doses with an applicator brush. Unit Dose, 0.25 mL, Bubblegum

(378-0166).....35/box

Contains: 35 single-unit-dose application sticks, instructions & 35 post-treatment patient instructions.

Standard Pack, 0.4 mL.....35/box

Specify:
Bubblegum (378-0162)
Strawberry Cream (378-0156)
Vanilla Mint (378-0372)

Colgate® PreviDent® Varnish 5% Sodium Fluoride (22,600 ppm)

Delivers 5% sodium fluoride (22,600 ppm) to the tooth, which is clinically proven for hypersensitivity relief. Convenient, unit-dose treatment sets rapidly on contact with saliva and dries transparently on teeth.

Unit Dose—0.4 mL.....50/box

Specify:
Caramel Sundae (129-8852)
Grape (543-0148)
Mint (543-0120)
Raspberry (543-0121)

Bulk Pack—0.4 mL.....150/pkg

Specify:
Mint (543-4811)
Raspberry (543-2267)

*Advance Care Program Pricing \$59.99

Annual commitment: minimum 5 boxes.

For full prescribing information, go to www.colgateprofessional.com.

Vella® 5%

Sodium Fluoride Varnish with Xylitol

Features a smooth, thin-layer formula and upgraded applicator brush with more bristles to reduce clumping during application. Provides relief from hypersensitivity and sets quickly when it comes in contact with saliva. Dries clear. Made in the USA.

Unit Dose—0.5 mL.....35 per Box

Specify:
Caramel (124-7651) Spearmint (113-6486)
Bubblegum (896-0377) Strawberry (113-6488)
Melon (115-5242)

Vanish™ 5% Sodium Fluoride White Varnish with Tri-Calcium Phosphate

White varnish, enhanced with tricalcium phosphate, becomes virtually invisible after application. Saliva-activated formula adheres to dry or moist teeth and will spread after application due to the patented formula, which allows migration to tooth surfaces. Indicated to treat hypersensitive teeth, exposed dentin, and root-surface sensitivity.

Trial Pack—0.5 mL.....50/box

Specify:
Cherry (737-0016) Mint (737-0017)
Melon (737-0018)

Clinic Pack—0.5 mL.....100/box

Assorted (400 Melon, 400 Cherry & 200 Mint) (737-0026)

Duraflor® 5% Sodium Fluoride Varnish

Highest concentration of fluoride available. Fast and easy application: sets on contact with saliva. Ideal for hypersensitivity treatments. Increased patient acceptance with Bubble Gum or Raspberry flavors (sweetened with xylitol). May also be used as a cavity liner. Available in the U.S.A. only. Store between 15°C and 30°C. 2-year shelf life. Releases more than 3 times the fluoride than the leading competitive brand, over a 4-hour period. Prevents, fights, and protects against caries. Prophylactic paste ring included in each box. "Peel and Apply" premeasured, one-step package for easy, consistent application that eliminates messes and the risk of cross contamination. Highest allowable fluoride concentration for fast action. Quickly dries to natural white tooth color.

Ear Wash System

Henry Schein's ear wash system is ideal for safely and effectively removing cerumen. The ear wash system kits include everything needed to clean ears quickly and thoroughly. It includes an ear wash bottle with a choice of a flexible hose or rigid tube and 3 tips. Additional tips, ear basins, and splash shields are sold separately. The ear wash basin is ergonomically molded to fit under the ear. It is made with polypropylene.

Features and benefits

- Ideal for safely and effectively removing cerumen.
- The ear wash system kits include an ear wash bottle with a choice of flexible hose or rigid tube and 3 tips.
- Additional tips, ear basins, and splash shields are sold separately.
- The ear wash basin is ergonomically molded to fit under the patient's ear.
- Not made with natural rubber latex.

(Item 570-1884 shown)

570-1884 – Ear Wash System, Flexible Hose

- 1 Washer bottle
- 3 Single-use ear tips

570-1885 – Ear Wash System, Rigid Tube

- 1 Washer bottle
- 3 Single-use ear tips

570-1883 – Ear Wash System Tips

- 20 Single-use ear tips

570-1903 – Ear Wash System Basin

- 1 Ear wash basin

570-1917 – Splash Shields, Rigid Tube System

- 10 Splash shields

Professional, Medical-grade Pharmacy and Laboratory Cold Storage

Keep your valuable products safe with the leading provider of cold storage solutions.

Featuring OptiCool® technology: optimized temperature, noise, and energy performance for safe storage of samples, reagents, vaccines, medications and more

NSF/ANSI 456 Vaccine Storage certified and EnergyStar® certified models available

Pharmacy and Laboratory
undercounter and upright models

Critical Cold Storage Solutions to meet CDC Guidelines for Vaccine Storage

- Full range of sizes, 1 to 72 ft³, to meet all capacity needs with ADA compliant models available
- Precise temperature control for storage of critical vaccines and samples with data logging solutions and options
- Audible and visual alarms with remote alarm capability
- Energy efficient design lowers operating costs
- Models utilize environmentally friendly, HC refrigerants

Cholestech LDX™ System

Complete Lipid Profile, Glucose

Lab-accurate lipid profile and glucose results

in about 5 minutes from a simple fingerstick.

Allows provider to get results while patient is still in office—provider can counsel and intervene

face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

HENRY SCHEIN® CARDIOCHEK® PLUS ANALYZER

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care
Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

Glucose 201 Analyzer

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0-444 mg/dL (0-24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 3-year warranty

Contains: ID chip & microcuvette.

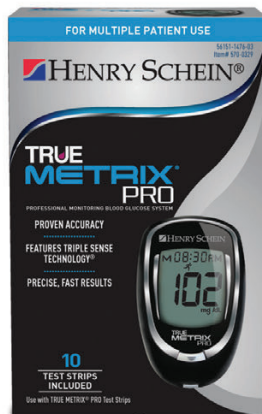

TRUE METRIX® PRO Meter and Strips

TRUE METRIX® PRO METER

- No coding
- Tiny, 0.5-µL sample size
- Stores 500 results
- As fast as 4 seconds
- BG range: 20–600
- Data management
- Download capabilities
- Glucose control detection
- Strip-release button

#RE4099P-43
(570-0329)..... ea
Contains: True Metrix® Pro meter & 10 test strips.

TRUE METRIX® PRO STRIPS

Advanced technologies—the meter, a complex algorithm, chemistry, and electrodes—on the test strip work together as part of the True Metrix® Pro system to produce accurate results. Featuring Triple Sense Technology™, the system provides proven accuracy and confidence in results.

- No-coding technology eliminates need for coding of meter
- Code is assigned during manufacturing process
- Code is printed onto contacts on end of test strip
- Meter reads code on insertion

Diabetes Awareness

Afinion 2 Analyzer

With its compact size and panel of tests, the Afinion 2 system is ideal for point-of-care testing in physician offices, clinics, community health centers, and hospital outpatient clinics. From just a small urine or fingerstick whole-blood sample, lab-accurate results for ACR and HbA1c are made available during the consultation. With built-in connectivity, the Afinion 2 Analyzer can communicate with LIS and HIS systems to share and manage data more effectively, contributing to better patient management everywhere.

- Size: 7.2" x 7.5" x 13"
- Weight: 7½ lb
- Patient/operator ID and patient/control results stored in memory
- No maintenance required
- No operator calibration
- Extensive and comprehensive failsafe systems prevent the possibility of erroneous results
- QC and operator lockout
- Afinion tests can be used with both the Afinion 2 Analyzer and the Alere Afinion AS100 Analyzer

#1116975, HbA1c Controls (136-4618)..... ea

A CLOSER LOOK AT AFINION™ 2 ANALYZER

The Afinion™ 2 Analyzer enables fast and easy quantitative determinations of hemoglobin A1c (HbA1c) and albumin-creatinine ratio (ACR). With its compact size and short test times, the Afinion™ 2 System is ideal for managing patients with diabetes.

Recent studies comparing the Afinion™ HbA1c assay to routine and reference laboratory methods have consistently shown a bias close to zero and a coefficient of variation (CV) below 2% (NGSP units).¹⁻⁵

Test results can be printed or transferred to electronic medical records.

Urinalysis

HENRY SCHEIN® URISPEC™ PLUS URINALYSIS READER & URISPEC™ 11-WAY URINE STRIP PROMOTION

Reads 11-way,
5-way Plus
4-Way & GP+A
Test Strips

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care.

- CLIA-waived
- Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
- Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
- Easy switch between different test strips: Urispec Plus is for use with Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

(570-1309)..... ea
Contains: 1 Urispec® Plus Urinalysis Reader & 12 bottles of Urispec® 11-Way Urine Strips.

HENRY SCHEIN® URISPEC™ URINALYSIS CONTROLS

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

HENRY SCHEIN® URISPEC™ 4-WAY URINE REAGENT STRIPS

- Protein, nitrite, glucose, and leukocytes
- Ideal for OB/GYN
- Infection, diabetes, and kidney function
- Dip and read in 60 seconds

CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that health care professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (10 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- New onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed
- **Made in the USA**

Point of Care

Realize the value of Point-of-Care PT/INR testing with CoaguChek® solutions

Point-of-care (POC) PT/INR testing can be a valuable component of a successful warfarin therapy program. Rather than sending patient blood samples to the lab and waiting days for results, in-office testing:

- Enables immediate therapy decisions by delivering on-the-spot results
- Saves valuable time and unnecessary steps
- Helps reduce risk and cost of treatment related complications¹
- Improves patient satisfaction²

To learn more about POC PT/INR testing with CoaguChek systems, visit <https://go.roche.com/CoaguChekXS-USA>.

Sofia® 2 Analyzer

Offers an easy-to-use interface, customizable settings, flexible workflow, barcode technology, and Virena® connectivity. Results are reported automatically on the screen and can be stored in Sofia 2, optionally printed on an external printer, or sent to Virena. Sofia 2 has 2 modes that can be used depending on your workflow requirements: Walk Away mode may be most convenient for reading a single patient sample. Advance Result Technology (ART) can provide results in as few as 3 minutes. Read Now mode may be most convenient for reading several patient samples.

Sofia 2 features:

- Accurate, objective and automated results in as few as 3 minutes
- Excellent performance compared to molecular and viral culture methods
- Flexible, dual-mode testing and simple, CLIA-waived procedures for a variety of laboratory environments

Sofia® Influenza A+B FIA Test

This CLIA-waived test uses advanced immunofluorescence-based lateral-flow technology to detect influenza A and B viral nucleoprotein antigens in nasal and nasopharyngeal swab and nasopharyngeal aspirate/wash specimens taken directly from symptomatic patients.

- Enhanced assay sensitivity
- Results in 15 minutes
- Accurate detection with nasal swab, NP swab and NPA/wash samples
- Nasal swab sensitivity (A/B): 90%/89%; specificity (A/B): 95%/96%
- NP swab sensitivity (A/B): 97%/90%; specificity (A/B): 95%/97%
- NPA/wash sensitivity (A/B): 99%/88%; specificity (A/B): 96%/96%
- Room temperature storage
- 21-month shelf life from date of manufacture
- For use with Sofia Analyzer (sold separately)
- CLIA-waived for nasal and nasopharyngeal swabs

Reader

Sofia® RSV FIA Test

A 15-minute test that has a walk-away automation feature that allows user to multitask. Offers accurate detection with nasopharyngeal swabs, or aspirate/wash samples. CLIA-waived for children less than 7 years of age, and moderately complex for pediatric patients from age 7 to less than 19 years of age.

- Single specimen may be used to run both Sofia influenza and RSV FIA tests
- Room temperature storage
- 24-month shelf life from date of manufacture
- For use with Sofia Analyzer (sold separately)

BD Veritor™ Plus System

The new wireless BD Veritor™ Plus System provides health-care providers and laboratorians in physician offices, clinics, hospitals, and integrated delivery networks (IDNs) with objective, lab-quality immunoassay test results within minutes. This fast and accurate solution streamlines the point-of-care (POC) diagnostic workflow and allows providers to quickly review patient results and determine the appropriate treatment in a single consultation. The new system can help detect infectious diseases such as influenza A and B, respiratory syncytial virus (RSV), and group A strep while the patient is still on site, which can enable faster decision-making for an earlier intervention opportunity.

Reader

- **Faster access to test results:** Help inform appropriate and targeted treatment decisions
- **Improved workflow:** The BD Veritor™ Plus Analyzer improves workflow with an Analyze Now or Walk Away mode, providing test results (with a print-enabled function) and aiding in decision-making while the patient is on site
- **Improved traceability:** The BD Veritor™ InfoScan module can scan 3 different identifiers (operator ID, specimen ID, and test kit/lot) that can be locally recorded, printed, or downloaded, and reduces hands-on time through automated documentation

- **Modularity:** Provides a unique solution to meet each testing site's preference
- **Connectivity:** BD Veritor™ InfoSync module provides the same benefits as BD Veritor™ InfoScan. Connects and documents test results across multiple sites and can integrate with a hospital electronic medical record or laboratory information system
- **Advanced particle technology:** Enhances sensitivity by using a proprietary process to produce highly stable, modified colloidal metal particles.
- **Adaptive read technology:** Compensates for background. Nonspecific binding helps improve specificity to reduce false-positive results

#256066
(126-5527)..... ea

BD Veritor™ System Flu A+B Test Kit

The first CLIA-waived flu A+B test referenced against PCR, a higher sensitivity standard than culture. Device is ready to insert into reader 10 minutes after sample is added.

- Positive percent agreement (A/B): 82.1%/74.6
- Negative percent agreement (A/B): 98.6%/99.6%
- Positive agreement vs. PCR for current visual read rapid test ranges from 10% to 70%
- Streamlined workflow: Provides a digital result in <11 minutes, with <50 seconds of hands-on time

Solana Molecular Testing Platform

Solana is a benchtop instrument that combines Quidel's proprietary helicase-dependent amplification (HDA) with fluorescence detection to deliver molecular results you can trust, faster than ever before. The Solana testing system is easily accessible and can be seamlessly integrated. Solana's workflow is easy and flexible, capable of testing a single specimen or batching up to 12 tests at a time. Solana offers an intuitive, touch-screen interface with guided operation and customizable settings. The instrument possesses 4 USB ports, bar-code technology, an external printer, and LIS connectivity. Results are reported on the screen, stored in the instrument and can be saved to a USB drive, printed, and/or sent to the LIS. Solana also comes with the power of Virena®, Quidel's proprietary wireless data management and surveillance ecosystem.

ID NOW™ Strep A 2

Now the fastest Strep A test without the need for culture confirmation, the CLIA-waived ID NOW Strep A 2 test provides molecular results in 6 minutes or less on the unique ID NOW platform. This allows you to confidently test, and with a positive result, treat, during the patient's visit.

- Early detection: positive results in as few as 2 minutes, with 99% detected within 3 minutes
- Negative results in 6 minutes
- No culture confirmation of negative results
- Nearly 90% fewer false negatives than RADTs
- No incubation time or thermocycling required
- CLIA waived
- Allows for the accurate detection of group A strep
- Provides the confidence to make clinical decisions sooner
- Facilitates effective patient management
- Aids targeted antiviral therapy and antimicrobial stewardship
- Room temperature storage

MAKING A DIFFERENCE WITH RAPID MOLECULAR TESTING

The ID NOW™ molecular platform was designed as a true point-of-care device to improve decision-making processes in any setting.

ID NOW™ COVID-19

Positive results in as little as 5 minutes and negative results in 13 minutes

ID NOW™ RSV

Results in 13 minutes or less

ID NOW™ INFLUENZA A & B 2

Results in 13 minutes or less, with early detection of positives in as little as 5 minutes

ID NOW™ STREP A 2

Results in 6 minutes or less, with positive results in as little as 2 minutes

The ID NOW™ COVID-19 product has not been FDA cleared or approved. It has been authorized by the FDA under an emergency use authorization for use by authorized laboratories and patient care settings. The test has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens, and is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of *in vitro* diagnostic tests for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner.

SMALL AND MIGHTY

Pediatric patients deserve the highest level of care. The DxH 560 AL delivers high-quality results, even for our youngest patients, by uniquely offering instrument-specific reference intervals.*

Smaller-sized labs can now rely on the DxH 560 AL hematology analyzer, providing pediatric clinicians with the opportunity to improve patient satisfaction by reducing redraws requiring less than a drop of blood.

- › Conserve precious samples from infant and other difficult-to-draw patients by using a small sample aspiration for testing—just 17µL
- › Report pediatric results with confidence based on ranges explicitly established for the DxH line—the first portfolio of hematology analyzers with instrument-specific pediatric ranges

Great things come in small packages.

WHAT'S THE DIFF?

Now is the time to update from a 3-part to 6-part differential.

XN-L Series™ Automated Hematology Analyzers

Upgrading to a XN-L Series™ automated hematology analyzer offers much more than a CBC with 6-part differential.

3-part		6-part
Direct current detection method	Technology (WBC DIFF)	✓ Fluorescent Flow Cytometry
No	Remote Monitoring	✓ Remote monitoring and support over an encrypted connection. Access to additional Sysmex services and tools.
No	BCQM ^h	✓ Real-time peer group comparison and monitoring of QC, and continuous calibration verification.
No	Continuous Calibration Verification	✓ Calibration status is confirmed every time multiple controls are analyzed, eliminating the need for scheduled calibrations.
No	Reduced Send-outs	✓ All differentials include reportable immature granulocyte count with no additional sample preparation.

The XN-L uses BeyondCareSM Quality Monitor for Hematology (BCQM^h) and remote analyzer monitoring to provide best-in-class service and confidence in results. Through BCQM^h, QC is automatically submitted and calibration is verified every time multiple controls are analyzed, eliminating the need for routine calibration procedures.

CALL TO ORDER FLU VACCINE TODAY!

Everyone 6 months and older should get a flu vaccine every season with rare exceptions. Children younger than 5 years old—especially those younger than 2—are at high risk of developing serious flu-related complications. A flu vaccine offers the best defense against flu and its potentially serious consequences and can also reduce the spread of flu to others. Source: CDC.gov
