Scanning a quantity barcode:

To add multiple quantities of the same item to your order, first scan the product item code and then scan 1 or more quantity values listed below. Note: Several quantity barcodes may be scanned for a single product. If you choose not to scan a quantity value, the quantity will default to the settings noted within your ordering preferences, which will be set to "1" or "the last quantity ordered".

1	2	3
4	5	6
7	8	9
10	11	12
13	14	15
16	17	18
19	20	21
22	23	24
25	26	27
28	29	30
40	50	100

Scanning a Negative Quantity Barcode:

To decrement the quantity on hand for items in your Inventory List, first scan the product item code and then scan one or more quantity values listed below.

-1 -2 -3
